## From the President,

Welcome to the February 2021 Magazine

**The Club is now holding regular meetings at the club rooms, a premeeting BBQ will be available from 6.30pm ready for the meeting start at 7.30pm.**

Our COVID -19 rules will still apply

1. All members on entering the club room must first sign the register and read the Covid-safe rules for the clubroom.
2. Given the floor area in the club rooms we are restricted to the number of people who may attend.
3. The bar will be open but please limit numbers at the bar.
4. Tea and coffee will be available.
5. Social distancing **must** be observed.
6. It is strongly recommended that any member in frail health does not attend
7. Of course, these guidelines are subject to further Government health directives
8. **Any person displaying flu like or Covid-19 symptoms MUST NOT attend.**
9. **Feel free to wear a mask even if they are not currently compulsory.**

The rescheduled Fish and Chips evening at Scarborough was a great success, it just shows if you put the effort in, the outcome is great, thanks Neil.

I have started planning a run to Bundaberg in June this year. To date 40 plus members in 20 cars have expressed interest, more than enough to justify the effort that will be needed to organise the run. A couple of members in the Bundaberg area have put up their hand to help us with the local organisation. The run will be a 3-day 2-night event, at this time the main group will leave Brisbane Saturday morning and return Monday. However, some members want to leave Friday, some want to return Sunday others want to stay longer, that's OK, we can accommodate all variations around the key date. Once I have the basics of the run organised I will pass it on to Neil to polish to his standard for a MOCA run. (The main reason for this handover is that I will be overseas for several months during the first half of the year).

If you are interested in joining this run but have not got around to letting me know, you are not too late, just drop me an email with your details and I will add you to the list.

The next run will be on Sunday **March 7<sup>th</sup>**, this is the Annual Memorial Run in conjunction with the Pony Club, this year the destination is Spring Bluff for a BYO lunch, full details of this run are published further in this magazine and on the website.

Please RSVP Neil if you are attending.

Please **Stay safe and Play Safe**

# February Run Report

Hi members,

A COVID lockdown caused the Annual January Fish n Chip run to be postpone, so it was good to see we were clear to go this month.

The mustangs gradually rolled into the meeting point, on this fine Saturday afternoon, what a great turn out! With the Covid questions checked off, a welcome to new members and guests, and the route layout given, it was time to go.

Maybe I have to make a few more notes for the prestart, as it was like a Le-Mans start, or was it a stampede, with cars heading off on alternate routes and not tucking in.

The route was over the Hornibrook Bridge and then swinging right to amble along the coast from Woody point to Scarborough.

Somehow horse sense prevailed, and we all arrived in a timely manner, with two classic convertibles parked outside in the spaces saved by the venue owners, the remaining cars managed to find a space to park.

A few members set up on the grass in the park opposite while the remainder found a spot on the reserved tables, or went for a refreshing ale at the Speciality Beer Bar two doors up.

The ordering queue was always busy as the meals were ordered, and with the members settled the raffles were drawn.

With guest and new members, we managed 30 cars and 66 people on the run.

Thank you for your attendance in making this another great motoring day and thank you to Marvelous Fish n Chips for the great effort in getting the great meals out in a timely manner.

And as always thank you to the run helpers, and raffle prize donations.

## Prize winners

## 2021 AUSSIE DAY

Another great motoring day has come around again.

The Bayside Vehicle Restorers Club Aussie Day Rally. Ten mustangs gathered at the meeting point on this fine day, and we rolled out with our Covid forms completed so we could have a hassle-free entry.

We managed to find a space to park as a group as this event has grown immensely over the years and space was limited.

Note: We will have to be earlier next year!

A quick bite to eat, buy a couple of fund raiser raffle tickets and off for a stroll around.

The diversity of the vehicles on show was truly amazing, from 30's to present, there were 772 vehicles to view!

A big thank you to the organisers and their helpers for another great event.

## CLUB RUN CALENDAR

The Club calendar is designed to assist members planning ahead for designated runs and Club related activities. Club Person of the Year points are assigned for these events. The Club Run is generally held on the 1st Sunday of each month with a "rain date" set for the following Sunday. If for any reason there is a change to an advertised run, details will be in a Coming Events page on the Club website at [www.qld.mustang.org.au](http://www.qld.mustang.org.au). The Club Calendar lists designated events / activities and these are therefore recognised as sanctioned Club Runs. Points towards Club Person of the Year are only awarded for attendance at the official 1st Sunday month Run (or Saturday where appropriate).

# Mid-Month Fun Run Report

## The Barrel at Clouds Vineyard, Maleny

### Weds 17th February 2021

The weather was showery as our 19 ponies left Shell Nudgee and headed north. We had a good mixture of new and classic Mustangs (plus a couple of daily drivers) all eager for another adventure. Once we exited the M1 and got onto smaller roads the scenery turned into rolling hills with the Glasshouse Mountains as a backdrop.

Arriving at The Barrel at Clouds Vineyard we parked up and were met by another two Mustangs. COVID paperwork completed we proceeded to our reserved tables within the iconic barrel. Meals were ordered and wine and craft beer tasting

was undertaken by some of our wine/beer buffs. Delicious meals for our group of 38 were soon delivered by enthusiastic staff keen to discuss our Mustangs. It was great to chat to prospective new members about our club and all things Mustang. It was a big group but we all managed to catch up with each other and, as always, have a few laughs and tell a few yarns.

**Dreaded Covid 19**

**And the ongoing effects on the spare parts supply chain !**

This might be obvious to those already seeking spare parts, but it may be helpful to those about to embark on any restoration work. Look locally first where ever you can !

For some time now, various wholesale suppliers have had ever more increasing difficulties getting stock item supplies... regardless of it being Ford or Chevy parts.

This in part is due to the regions they are being sourced .i.e. Taiwan , China etc. and the effects Covid 19 has had with shipping delays and ships even being re-routed in some cases.

Also, just as another significant example and the effects of Covid 19 may bring about other similar industry cases : I have been informed that Scott Drake Automotive is now going through an acquisition process as Holley Performance products has recently acquired them.

No doubt there will be some integration with their internal systems, as well as supply changes to their market channels etc. This all adds to potential delays in sourcing product.

All this coupled with suppliers here having to do the juggling act of trying to stock what sells quickly rather than keeping those larger and more costly items that tend to sit for awhile – it all cost

The point of this is : “please be patient” with who you purchase products from, they need your support more then ever !

Kind Regards,

Ed Callander.

### Dating Letter

One club had troubles when a member formed his own club to save money on the club letter only to have it rejected because the club was not incorporated. So he went back to his original club for a letter and took that to transport only to have it rejected because, when they listed 40 years ago the name they now use is not exactly the same, and did not have the number in the letter head. The parent club had to redo the letter, and the letter head.

Hello John.

Import approval will be required for all imported vehicles. I can provide detail for light vehicle standards. If you wish to import a heavy vehicle, the standards are regulated by the National Heavy Vehicle Regulator (NHVR). To enquire as to potential LHD permits and ADR requirements you would be best emailing [vehiclestandards@nhvr.gov.au](mailto:vehiclestandards@nhvr.gov.au).

As far as light vehicles are concerned, the following applies.

1. All light vehicles imported require federal government import approval. There are various approvals and for registration, the import approval must not have a restriction preventing registration, for example an import for display purposes only
2. ADR's were introduced in 1969 in Australia. Any light vehicle built in 1969 or newer will require ADR certification by an Approved Person (AP) Engineer. This certification will appear on the modification plate affixed to the vehicle and upon the modification certificate. Pre 1969 light vehicles do not need this certification. All light vehicles will then require a current Safety Certificate for registration.
3. The page you referenced is for the Special Interest Vehicle Scheme (SIVS), sometimes referred to as club registration. Light vehicles must be at least 30 years of age and Heavy Buses 25 years of age to be eligible for this concessional registration.
4. Light Vehicles imported prior to 10 December 2019 are required to be 30 years of age if the owner wishes to register the vehicle LHD. Under a transitional federal government arrangement, light vehicles imported from 10 December 2019 onwards may be registered LHD from 25 years of age. The above ADR and Safety Certificate requirements apply.
5. In the case of a LHD vehicle being registered in the 25 to 30 year of age window, that vehicle will need to be registered under full registration. At 30 years of age the vehicle may be registered under the SIVS scheme should the owner wish to, subject to SIVS requirements.

## WHY CLASSIC CAR PRICES ARE SOARING

By: David Morley, Unique Cars magazine

Date: 23.01.2021

### And it's not 'Covid tax'!

YOU CAN'T look at a social media car advert right now without seeing the words 'Covid tax' in the responses and feedback.

But is Covid tax the only reason for the recent price hikes in the cars we love, and what is Covid tax anyway?

It's no secret that the asking prices of classic cars – Aussie stuff in particular – have headed for the moon in the second half of 2020.

The theory seems to be that the hikes (the Covid tax) are down to JobKeeper payments suddenly seeing low-income earners with more money in their pockets than ever before, and a group of workers who took government-backed opportunity to raid their superannuation also finding themselves in the same cashed-up boat.

Maybe it won't last long, but that's one theory.

Throw in the death of Australian car-manufacturing, historically low interest rates and a Covid 19-magnified wave of nostalgia for the good old days, and you have yourself

But is that what's really happening?

Car Sales Manager at **Melbourne's Healey Factory**, Russell Cox, doesn't think so.

He does, however, recognise that prices are heading north at a great rate.

"People are going crazy at the moment," he says.

"But it's not on everything. High quality cars at under \$50,000 are where the action is, but those are still high-end cars, so they're not what anybody on JobKeeper is looking at."

So what is jacking up prices?

"My theory is that people are not travelling. They're not spending their usual 20 or 30-grand on overseas holidays. We had a customer in here recently who normally visits his house in France at this time of year, and this year, he's not. So he bought himself an Austin Healey instead."

"Beyond that, it's supply and demand. And the supply's just not there. During lockdown, people from outside Melbourne couldn't even bring their cars to us to be sold, and I've been having to buy cars sight unseen to get stock. And sometimes you get burned doing that."

But Russell admits that none of this explains the stratospheric rise in the prices of Australian cars, many of which are of dubious condition.

"Three-on-the-column, six-cylinder Kingswoods and Falcons and the prices being asked for them...I just don't get it."

Clive Massel of [Makulu Vehicle Services](#) offers other reasons for the phenomenon.

"There are three primary reasons for the increase in interest in the classic car market," he told us.

"The first is that investing in a classic car is capital-gains free. Secondly, there's a better return than bank interest rates at the moment. And thirdly, many people just don't know what lies ahead or what life will be like in a Covid world. Some are saying, stuff it, we're going to buy what we want and enjoy it."

There are, of course, problems associated with the boom, says Clive.

"I'm concerned that some buyers are naïve. They end up buying the wrong cars because they don't know what they're looking at; they're not enthusiasts.

"The danger there is that the car won't live up to their expectations and that's the moment classic cars won't be the flavour of the month any more."

The other question is whether prices will stay this way or if there will be a correction that will see them fall.

Russell Cox believes there will be an end to the insanity, although, on the basis of his bottom line, "We're hoping it'll continue".

Clive Massel agrees: "This is great for business right now, but eventually there has to be a correction. I can't see prices going on and on like this."

But even if some prices do soften, those for cars that were undervalued when the hike hit should stay buoyant.

So don't throw your crystal-ball in the skip just yet.

### WHY ENGLISH IS HARD TO LEARN - Anonymous

We'll begin with *box*: the plural is *boxes*  
But the plural of *ox* is *oxen*, not *oxes*  
One fowl is a *goose*, and two are called *geese*  
Yet the plural of *moose* is never called *meese*

You may find a lone *mouse* or a house full of *mice*  
But the plural of *house* is *houses*, not *hice*  
The plural of *man* is always *men*  
But the plural of *pan* is never *pen*

If I speak of a *foot*, and you show me two *feet*  
And I give you a book, would a pair be a *beek*?  
If one is a *tooth* and a whole set are *teeth*  
Why shouldn't two *booths* be called *beeth*?

If the singular's *this* and the plural is *these*  
Should the plural of *kiss* be ever called *keese*?

We speak of *brother* and also of *brethren*  
But though we say *mother*, we never say *methren*  
Then the masculine pronouns are *he*, *his* and *him*;  
But imagine the feminine ... *she*, *shis* and *shim*!
